

Dermatology for the Generalist Online Course

Activity Description

Available for the first time, Mayo Clinic is pleased to offer an online CME course drawing from the expertise of leaders from dermatology. Available in a fully virtual format, topics are available in eleven modules including skin exams, cancers, acneiform disorders, inflammatory skin disease, infections, hair, nails and mucus membranes, cosmetic dermatology, dermatology for skin of color, pediatric dermatology, systemic manifestations, medications, and environmental impacts on skin.

Target Audience

The information presented is relevant to a broad range of non-dermatologists and primary care providers, including general practitioners, internists, physicians, residents, physician assistants, nurse practitioners, APRNs and registered nurses.

Learning Objectives

Upon conclusion of this activity, participants should be able to:

- Recognize common dermatologic disorders and diseases.
- Identify appropriate methods of treatment and medications for commonly observed dermatologic conditions.
- Recognize when further consultation is necessary through external referrals.

Attendance at this Mayo Clinic course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.
